BRAND STATEMENT

Front-end web developer leveraging cybersecurity background to build a more adaptive skill set.

Recently completed the full-stack development from the University of Washington, with developed skills in JavaScript, CSS, NodeJS, MySQL, MongoDB, React, and MERN. With each project, my aim is to best engage my audience for an impactful user experience. I applied aspects of UX and agile development in a recent project. I worked on a team of four to develop a single-page app that helps all avid outdoor adventurers that are especially aware of the current pandemic allow to find trails that are less populated by people. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better and safer experiences on the web.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL

Applications: GitHub, MongoDB, MySQL, Visual Studios

Tools: Express, React, Node, Handlebars, JQuery, Bootstrap, SemanticUI, MERN

PROJECTS

DISCOVERserenity (June 2020)

[Live Link](#) | [GitHub Link](#)

- Single Page Web Application that takes current location data to track trails by least popular to prevent the spread of covid-19 giving you peace of mind while hiking
- CSS Grid, SemanticUI, JQuery, Responsive design through all viewports, JavaScript
- Google Maps GeoCoding API, REI Hiking Project API, COVID19 API
- Completed the COVID cases by county and linked the trails that were in the same county to organize covid cases by county relative to the trails

Employee Directory (November 2020)

[Live Link](#) | [GitHub Link](#)

- Generates a list of employees that can sort by first or last name
- React, React Hooks, JavaScript, GitHub Pages, functional components, ESLint
- Created a Search component hook that constantly updates the list each time you type in a name

5 Sherpas (November 2020)

[Live Link](#) | [GitHub Link](#)

- Generates suggestions on constructive activities for personal improvement and motivation every week
- React, React Hooks, Mongoose, SemanticUI, D3, Passport, MongoDB Atlas, JavaScript, Heroku
- Integrated challenges, activities, movies data to interact with the different sherpas that help suggest goals

EXPERIENCE

PC SYSTEMS BUILDER | US MICRO, INC.

BELLEVUE, WA | 09/2019 – 02/2020 (PART-TIME)

- Completed 100's of custom build machines
- Troubleshooted computers, hardware, software
